

# A Fractional CISO - Your Strategic Advantage!

Get executive leadership of a full-time CISO to build a resilient, compliant, and client-trusted security program without the full-time cost. Strategic cybersecurity leadership for Payroll, HR, FinTech & Logistics.

## Compliance Maze

Struggling with SOC 2, ISO 27001, PCI DSS, or GDPR requirements?

## Enterprise Pressure

Overwhelmed by complex security questionnaires from potential clients?

## Strategic Void

No one owns the cybersecurity roadmap or answers board questions?

## Constant Anxiety

Stuck in reactive cycle, responding to incidents instead of preventing them?

## CISO-as-a-Service from Asinpa

We become your on-demand cybersecurity executive and strategic partner. This flexible subscription service transforms security from a cost center into a competitive advantage.

# \$250K+

### Cost Savings

Avoid full-time CISO salary while getting executive expertise

# 5

### Core Services

Comprehensive coverage across your entire security program

# 4

### Maturity Phases

Structured path from assessment to continuous evolution

# A Phased Path to Cybersecurity Maturity

Our structured, four-phase model ensures measurable progress and clear value at every step of your security journey.

## Discover & Assess

Deep dive to understand your business, goals, and current security posture.

## Strategize & Roadmap

Co-create a prioritized, 12-month cybersecurity roadmap tailored to your needs.

## Execute & Manage

Regular meetings to guide implementation, manage projects, and oversee activities.

## Report & Evolve

Clear executive reports, demonstrate progress, and adapt strategy as you grow.

## Comprehensive Strategic Partnership

### Strategy & Governance

Develop business-aligned cybersecurity roadmap and establish policies for board reporting.

### Compliance Management

Manage entire journey for SOC 2, NIST, CIS from assessment to monitoring.

### Incident Response

Develop robust IR and Disaster Recovery plans with realistic tabletop exercises.

### Proactive Threat Management

Oversee Proactive Penetration and Vulnerability Testing with expert risk prioritization.

### Vendor & Risk Management

Build vendor assessment programs and handle client security questionnaires.

### Measurable ROI

Win enterprise deals, avoid fines, streamline audits, and build market trust.
